# BATTERY TESTING DIAGNOSIS

Digital battery testing provides numerous advantages over traditional methods that improve efficiency and effectiveness in auto repair, fleet service and vehicle maintenance.

Diagnostic solutions are essential for the maintenance of high pressure systems such as common rail or unit injectors, provide you with optimal opportunities to check these vehicle systems.

**BOSCH**

# OIL MANAGEMENT

Control, store and manage new and waste oil with ease. Ezzlube's patented technology ensures simple operation and peace of mind.

Pivotal in the removal of engine oil from the undercarriage of a car whilst on a hoist, this is available in pressure discharge or gravity configurations depending on your purpose.

## BODY REPAIR WELDING

Unipac offers a comprehensive range of equipments by leading manufacturers to quickly and efficiently repair a damaged vehicle - from bench pullers, welders, panel beating tools, UV paint curers, to equipment cleaning machines.

## PAINT BOOTH CURING

You can rely on leading Italian spray booth technology to quickly and efficiently paint a car (or parts of a car) without having to worry about overspray and having suspended paint particles in the air. This always ensure the best possible paint finishing.

## A/C SERVICE NITROGEN GENERATOR

Let these fully automated a/c stations do the work for you.

Vacuum, re-gas and re-lube with a push of a button.

Nitrogen tyre filling services can now be offered in your workshop with the automated nitrogen generator.

---

## PROFESSIONAL TOOL SETS

Use only the best tools by the leading Italian manufacturer that guarantees precision and durability.

## TOOL TROLLEYS

Organize and transport your tools with ease around the workshop and to events with the sturdy tool trolleys by Beta.
