

MAXISYS

COMPLETE DIAGNOSTIC SYSTEM

The MaxiSys Pro / MaxiSys complete diagnostic packages are designed for professional technicians who demand superior tool features to provide the best performance for their investment. Utilizing A9 quad-core 1.4 GHz processors, the MaxiSys tools double the speed with our revolutionary multitask-capable Android Operating System. Combined with the best possible OE-level diagnostic coverage, the MaxiSys tools are the perfect diagnostic solutions for technicians who demand unrivalled smart technology and smart repairs.

MAXISYS

Designed with the DNA of Autel's diagnostics family, the MaxiSys is built to offer many of the prestigious qualities of the MaxiDAS DS708, with a larger 9.7" LED capacitive touchscreen and a higher level of powerful diagnostic performance. The MaxiSys has evolved far beyond our original tool capabilities to offer complete diagnostic solutions for smarter repairs. With the purchase of a J2534 pass-thru programming device, you can upgrade to MaxiSys Pro.

 1.4 GHz Quad-core	 5 MP Camera	 Grease & Water Resistant	 32G Solid State Drive	 1024x768 LED Capacitive Touchscreen	 11000 mAh Lithium-polymer Battery

BLUETOOTH VCI

Enhanced wireless connectivity between the tablet scan tool and Vehicle Communication Interface (VCI) device, allowing greater mobility and freedom to complete projects easily.

REMOTE TECH SUPPORT

Autel's technical support can remotely log into the device and walk you through even the most complicated vehicle diagnostics. This real-time support provides quick and accurate solutions with a simple transfer of data logs between the device and tech support specialist.

DATA LOGGING

Interactive data logging sessions enable direct contact with Autel customer support for first-hand troubleshooting of diagnostic bugs and errors.

SHOP MANAGER

One-stop multi-tasking for ideal organization and management of workshop operations. Designed to keep all project data files, customer information and vehicle identification records as well.

PRINTER SETUP

Print recorded data anytime and anywhere. Print from the tablet scan tool via a Windows PC after installing Maxi PC Suite software, or from a Wi-Fi printer after installing a Wi-Fi printing app on the tablet.

MAXISYS

COMPLETE DIAGNOSTIC SYSTEM

The MaxiSys MS908S/MaxiSys MS908S Pro are the advanced versions of the well-known Autel MaxiSys/MaxiSys Pro. Featuring Hexa-core processors, the new MaxiSys MS908S/MaxiSys MS908S Pro provide faster operations on our multitask-capable Android Operating System and save more diagnostic and repair time for technicians. With the 64G on-board memory, there is no more worry about Memory Full! You can download as much vehicle software as you need to further expand diagnostic coverage and better satisfy customer needs!

MAXISYS MS908S & 908S P

As a new member to the Autel MaxiSys family, the MaxiSys MS908S provides the best possible OE-level diagnostic coverage and service functions as the famous MaxiSys does. But with a faster Hexa-core processor, larger 64G memory and an 8 megapixel camera, the new MaxiSys MS908S will improve your diagnostic experience to a whole new level! With the optional MaxiFlash Elite, you can upgrade to MaxiSys MS908S Pro.
